1 IKPOBA HILL, P.M.B. 1747, BENIN CITY EDO STATE

RELEASE OF THE 2023 IN-SCHOOL NBC/NTC EXAMINATIONS RESULTS

NABTEB released the results of 2023 In-school NBC/NTC examinations which were conducted nationwide from Monday, 26th June to Tuesday, 25th July, 2023. A total of **54,301** candidates registered for the examinations in **1,556** centres across all the States of the federation and Cote d'voire. This enrolment figure marked a **38.06** % decrease compared to that of the 2022 In-school certificate examinations where **87,668** candidates enrolled for the examinations. Analysis of the enrollment for the 2023 NBC/NTC examinations indicate that candidates registered for **16** Engineering Trades, **7** Construction Trades, **9** Miscellaneous Trades, **4** Business Trades and **17** General Education Subjects. A total of **53,587** candidates sat for the certificate examinations which represents **98.69%** of the total enrolment.

It is important to note that **13,699** candidates representing **51.93%** were certified as craftsmen against **64.41%** in 2022 In-School NBC/NTC examinations. The analyses further revealed that, **39,220** candidates representing **73.19%** of the total candidates who sat for the examinations scored **5** credits and above including English Language and Mathematics. Furthermore, a total of **49,529** candidates obtained **5** credits and above with or without English Language and Mathematics; this represents **92.43%** of the candidates who sat for the examinations. Comparatively, this performance is higher than 2022 Inschool NBC/NTC examinations results where **58,679** candidates representing **69.73%** obtained **5** credits and above including English Language and Mathematics, and **74,346** candidates, representing **88.35%** of the entire candidates who sat for the examinations obtained **5** credits and above with or without English Language and Mathematics.

Examination malpractice remains a global challenge in the conduct of public examinations and has gained international attention in assessment discourse. It is against this backdrop

that the Board continues to introduce various innovative approaches towards ensuring that malpractice is drastically reduced in her examination activities. In the examinations under review, two hundred and thirty nine (239) candidates representing 0.45% of the total number of candidates who sat for the 2023 NBC/NTC examinations were involved in examination malpractice as compared with three hundred (300) candidates, representing 0.36% of the total number of candidates who sat for the 2022 In-school examinations, indicating an increase in examination malpractice.

Finally, the Board wishes to use this opportunity to inform you that NABTEB has commenced registration of candidates for the 2023 November/December NBC/NTC and ANBC/ANTC examinations. The certificate examinations are for private candidates and prospective candidates are advised to visit any of the NABTEB State or Zonal Offices to obtain guidelines for registration.
